DR. FOOTE AND HIS ASSAILANT. SO TRACE OF THE MAN WHO SAYS HE MADE THE

ASSAULT The police officers of this city have not been able to discover any trace of August Woehler, the selfaccusing assailant of Dr. E. B. Foote, of No. 120 Lexington-ave., on Saturday of last week, and the person whose letter from this city to friends in Hartford, Conn., stating that he intended to commit suicide after his attack upon Dr. Foote, appeared in The Telbune of yesterday. The case is the charge of the officers of the Twenty-first Precinct. No case of a snicide answering the dcscription of Woehler had been reported at Headquarters up to last evening.

Dr. Foote received the following dispatch from Hartford yesterday afternoon, from an acquaintance whose name he desires withheld:

Long letter from Wochler been found. Says few years ago went to you for treatment for disease. You thought to make more money by not curing him. Paid you \$300. Made life miserable. Reselved to die and kill man who was to biame. Letter is explicit. Long and damaging representations. New-York papers want it, and can get it. I have it in power to stop it. Can you pay for it? Will cost me considerable. Hartford, Nov. 5.

Dr. Foote stated to a TRIBUNE reporter that the substance of his reply to this was that he was no: airnid to face any of his cases, but that he had never been paid any such amount as that named by any such person. He added that when he received the name of this man be turned to his register and found that the only patient he had ever had by that name was in 1871, who said he lived on the Pacific Coast. The full name on the register was the same with the exception that it was spelled without the

with the exception that it was spelled without the e. This person had received mine months' treatment and one operation, and had paid the Doctor \$130. He had been under the entire care of Dr. Harvey, an associate of Dr. Foote, now dead. Dr. Foote also said:

"My assailant did not appear like a lunntic. His face was very pale, but his manner of addressing me was unid and pleasant. The case of my patient at the West shows no resanity. But of he is not the one, there is no such case in my office. I did not know his trade. I am good at recollecting inces, but the man who restailed me I do not remember to have seen before. I don't believe the statement in the letter that Woehler could not have procured as pistol if he had wanted to, for he was well dressed, and had on an overcoat which I should say was worth \$30, and which he could have pawned if he chose. I would not pay two cents for that letter mentioned in the dispatch. I am willing that the truth should be published if there is any truth in it." A telegraphic inquiry from The Hartford Erenous Post, on Therday afteraoon, was answered as follows by Dr. Foote : "On Saturday an unknown man attempted to take my life. I know no one by the name of A. Woehler; but A. Weller, of Hartford, wrote me on October 29 that he would call on me. I do not remember to have heard from him before or to have seen him, unless it was he who made the attack."

STABBED BY AN INFURIATED DRUNKARD. TWO MEN SO BADLY INJURED THAT THEY WILL PROBABLY DIE.

An affray took place in a beer saloon at No. 184 Worth-st., near the Five Points, yesterday morning, In which two men were so badly injured that they will probably die. Patrick McCormick, a newspa per-vender, who lives at No. 38 Mulberry-st., entered the saloon shortly after midnight, and after drinking there some time became so abusive that the proprietor, John Connery, put him out. The on was opened vesterday morning about balipast 7, and immediately afterward McCormick came in. He was now crazy with drink, and acted in the most violent manner. John Connery, age

came in. He was now crazy with drink, and acted in the most violent manner. John Connery, age eighteen, who was in charge of the bar at the time, conselited to supply him with a drink of whiskey if he would leave the place, but as soon as he received the liquor, he began to swear about the ejection some hours before. After a time the bar ceper came around the conner and seized him by the collar to throw him into the street, when McCoranek drew a large pocket-knife and plunged it into the abdomen of his assailant. Connery cried out, "I'm Mabbed," in stabbed," and made little further resistance to the infuriated drunkard, who drove his knife again and again into the barkceper's bedy.

There was only one other person in the saloon at the time, a tramp named Thomas Welsh. He watched the struggle for a while without thought of interference, but when Connery cried out he stepped torward and tried to push McCormick into the street, when he was also stabbed. The fight lasted only a couple of minutes, yet in that short time McCormick managed to inflict five or six bad wounds on Connery, and no less than thirty upon the body of the tramp. Meanwhile a crowd had collected round the door, and McCormick, finding no further resistance from the two men, receid out into the street, brandishing the kinfe, which, with his hand, was dripping with blood. Officer Thomas Kierney arrested him, and the two injured men were taken to the Chambers Street Hospital. Welsh was found to be suffering from two penetrating wounds in the adomen and one in the cleest, which just grazed but did not sever the carotid artery. Conners of the content of the street of the suffering from two penetrating wounds in the adomen and one in the cleest, which just grazed but did not sever the carotid artery. Conners were such that his bowels protruded. As just grozed but did not sever the carotid artery. Connery's case was even worse. The wounds in his abdomain were such that his bowels protruded. As
very few persons recover from such injuries, Coroner Ellinger was given notice and attended for
the purpose of taking the ante-mortem testimony of
the two men. McCornick, who admitted before
the desk at the Fourth Precinci Police Station that
he had done the stabbing, was taken to the hospital
and identified by the two men, after which the
statement of Connery was taken in reference to the
affray. It is in substance as stated above. McCornick was then sent to the Tombs. Connery is not
expected to survive, and about the recovery of
Welsh there are grave doubts.

TRYING TO ABOLISH GRAMMARS.

At the meeting of the Board of Education yesterday, a report was received from Superintendent Jasper in which, speaking of the overcrowded condition of the public schools, he stated that in the primary department of nine schools, 1,823 pupils had been refused admission in September and October. Of these 633 had afterward been admitted, leaving 1.190 denied the opportunity of obtaining an elementary education. A resolution calling upon the Committee on Buildings to consider the pro-

an elementary education. A resolution calling upon the Committee on Buildings to consider the propriety of connecting the city colleges and primary schools with the Ein-st. headquarters by the telephone system was referred to a committee.

The consideration of the report of the Committee on Course of Study and School Books, submitting a list for the ensuing year, brought on a protracted and heater debate, in which a great deal of apparent ill-feeling was displayed. Mr. Watson offered a minority report, attacking the depot of supply system and the custom of permitting principals to select from a large list of text-books, instead of having the selection made by the Board, and suggesting that the book of any class which had been most used by teachers in 1879 should be selected by the Board as the text-book of that class. The report was rejected. In considering the majority report, a control of cray at once arose upon the subject of grammar and text-books of grammar. Commissioner Stephen A. Walker moved that all text-books on the subject be dispensed with, and that the teaching be done by oral instruction and example. He was supported by President Wood, who considered the teaching of grammar from books an absurdity. It dwarfed the minds of pupils and was of no practical benefit. In the discussion the pet aversion of Mr. Walker and President Wood, Gould Brown's grammar, which is generally approved by the teachers, was attacked as an abomination and defended as the best of books, the members using very strong language to express their opinions. Messrs. Place, Watson, Wickbam, Traub, Walker and Wood wanted the text-books dispensed with, but were outvoted. By a vote of 10 to 6, several grammars, Mr. Brown's among them, were added to the last in the report.

ITALIAN PAUPERS AT CASTLE GARDEN. About 200 of the most poverty-stricken Italian Immigrants that were ever landed at Castle Garden, arrived yesterday on the steamship Vaderland from Antwerp. Several of them are suspected of coming to this country to beg. One of them particularly attracted the attention of Superintendent Jackson. He is a wretched cripple; his lower limbs being perfectly powerless and his hands badly deformed, so that he can only get about on his hands and feet. Officer Chiardi, of the Society for the Prevention of Crucity to Children, Interpreter Macpherson and Mr. Jackson conducted an investigation, and it appeared from the fellow's guarded answers that he was sunggled through the country by some padrone, without a passport. He said his name was Vito Muzio, and that a woman and two children who were with him were his family. His wife had supported him in Italy by taking in washing, and she expected to do the same here, while he took care of the children.

The wife's story coincided in some particulars with that of her husband. She had married him because nobody else would. The man will be returned to Italy, and the case will be referred to the State Department, with an urgent request that instructions may be given to the Consuls abroad to prevent the emigration of such people.

Among the immigrants were two Italians who had escaped from their country, without passports, for fear of being drafted in the military service. formed, so that he can only get about on his hands

tion of the money market the speculative feeling has been checked, and there are apprehensions of a still further decline, particularly if the money market continues stringent. Flour declined from Monday's closing prices, yesterday, from 15 to 25 cents a barrel; Winter wheat from 4 to 6 cents a bushel; Spring wheat from 3 to 5 cents; corn and oats from 1 to 1½ cents a bushel. Provisions were lower, with only slight activity. The cost of carrying and storage having materially increased has also affected the trade.

DISTRIBUTING CHURCH FUNDS. The General Missionary Committee of the Metho-

dist Episcopal Church convened in annual session yesterday morning at the offices of the Methodist Book Concern, No. 805 Broadway, to make appropriations for the ensuing year. The committee consists of all the bishops of the Church, secretaries and treasurers of the Missionary Society, twelve representatives of the Church at large and twelve representatives of the Church at large and representatives from the Board of Managers. There were present at the meeting: Bishops Levi Scott, Matthew Simpson, Thomas Bowman, William L. Harris, Randolph S. Foster, Isaac W. Wiley, Stephen M. Morrill, Edward G. Andrews, Gibert Haven and Jesse T. Peck: Secretaries Robert S. Dashiell and John M. Reid: Treasurers M. Phillips and Luke Hitchcock. Representatives were present from Massachusetts, Ohio, Binnois, Michigan, Io va, Kansas, Oregon, West Virginia and Tennessee. Bishop Simpson was chosen chairman of the meeting. The treasurer's report for the year just closing shows the receipts to have been \$551,859 30, and the disbursements \$572,206 90, exhibiting a deficiency of \$20,407 60. Though the total debt has been reduced \$199,318 40 in the last three years, there is still a baiance of \$63,037 15 due. Contributions from the Western conferences have increased \$15,180 71, while those from the Eastern conferences have decreased \$14,686 50. The aupropriations are as follows: For Liberia, \$6,000: Interior Africa, \$2,000; South Africa, \$8,500: North China, \$16,000; Central Caina, \$8,000; North China, \$20,000; Germany and Switzerland, \$25,000; and \$3,000 for church property in Germany, of which \$600 is to pay interest on church debt in Berlin. representatives from the Board of Managers. There meeting adjourned to meet this morning at

METHODS OF CLEARING STOCKS. The adoption of some method of clearing stocks was the subject of long and animated discussion yesterday by the Governing Committee of the Stock Exenange. The special committee appointed to confer with the Bankers' Committee reported. but recommended no definite plan. The report referred to the various methods in use in Philadeiphin and in foreign countries. It called attention also to a by-law of the Exchange, which permitted trading in stocks for the account. The adoption of this system of dealing in stocks would render necessary setting days, after the English custom. It would do away largely with the certification of checks, for delivery and payment would be made only on the balances at the periodical settlements. No action was taken by the Governing Committee, the whole matter being laid over for future consideration.

cration.
The stockholders of the Union Bank, with one or two exceptions, have signed the agreement in favor of withdrawal from the National bank sys-tem. President Hays said yesterday that it was not probable that the bank would retire at present. It was thought a good time to secure an expression of opinion from the stockholders in case the bank should wish at any time to withdraw.

THE HACKENSACK RIVER DISASTER.

It was rumored in Jersey City and Hoboken yesterday that Coroner John R. Wiggins had ordered officers to arrest the two bridge-tenders at the Hackensack River bridge of the New-York and Greenwood Lake Railway, where the accident occurred on Tuesday morning. This was not the ease, however. The jury drawn by Coroner Wiggins is an intelligent one, and is composed of B. H. Throckmorton, foreman, James T. Wiley, G. W. Timbermorton, foreman, James T. Wiley, G. W. Timberman, P. W. M. West, John Hurd, D. W. Benjamin, Edward J. Jenne, J. W. Eggers, Alfred McCarthy. Daniel D'Voursney and Francis Eckler. The investigation will be held Monday evening. Philip Reeves, of Vernon, Essex County, N. J., who was slightly injured by the accident, states that the danger signals were not displayed by the bridge-tenders. The bridge has been repaired, and the trains were running regularly yesterday. William Bell, of Belleville, N. J., who was badly hurt in the accident, was lying at the point of death in the Hudson County Penitentiary at Snake Hill, near the scene of the accident, last evening.

ARRIVAL OF GILBERT AND SULLIVAN. Among the passengers of the steamship Bothnia, which arrived here at 10 a. m. yesterday, after a ten days' voyage from Liverpool, were W. S. Gilbert and Arthur Sullivan, the playwright and the musician who produced "Pinafore." Miss Roosevelt, the prima donna of their opera company, and Altred Cellier, another of its members, accompanied them. The remainder of the company will arrive probably on next Tuesday, and the season will be begun in this city with "Pinafore" on December
1. Mr. Sailivan expects to lead his own orchestra,
and on November 23 will conduct an orchestra for
the Handel and Haydn Society in his oratorio of
"The Produgal Son." He has great faith in the
new opera written by himseif and Mr. Gilbert, and new opera written by binsert and Mr. Gloori, and expects it will prove a great success here. If the new opera, which has not yet received its name, and which is written in the same key as "Pinnfore," should be successful, it will hold the boards in preference to everything else, Messrs, Gilbert and Sullivan have already taken private lodgings.

EXCHANGING TRAFFIC WITH THE WABASH. The agreement for an exchange of traffic between the Wabash and the Vanderbilt railroads-the Lake Shore and the Central-has not yet been executed. It is said to be completed substantially, although all of the details have not been perfected.

though all of the details have not been perfected. The agreement provides simply for an interchange of traffic at Toledo. There is in it nothing to brevent either company from making similar arrangements with any other connecting line. The Wahash Company can make precisely the same agreement with the Baltimore and Ohio or the Penusylvania Railroad.

The published statement that the agreement contemplated a union of the Wabash and the Vanderbiit roads, and that it included a sale to the Wabash directors of 200,000 shares of New-York Central stock, was denied emphatically by prominent Wabash directors. The negotiations were said to look only to a traffic agreement usual between connecting railroads. necting railroads.

SAILORS LOST AT SEA. A dispatch from Boston states that the steamer Star of the East, of the Bath Line, sighted off Cape Elizabeth, Me., at 8 a. m. on Tuesday, on her trip to Boston, a wrecked schooner. Three men were discovered on the cabin top, which had floated off.

covered on the cabin top, which had floated off. They were rescued, and on the raft with them was the body of one of the crew who had attempted to swim ashore with a line and was drowned. The rescued men and the body were taken to Boston. The wrecked scheoner wasloaded with sawdust and bound for Boston.

A Portland dispatch Tuesday afternoon stated that the vessel was of 100 tons; that she went ashore at Broad Cove, and that all hands were lost. Probably all except the three men mentioned were lost, but the number of the crew has not yet been ascertained.

THE NEW BOARD OF BROKERS.

The Open Board of Stockbrokers was opened yes-terday for the transaction of business. About one hundred members were on the floor, but the sales made during the day were small. There were four regular calls, at 9:30 and 11:30 a. m. and 1:30 and 3:30 p. m. The only sales at the calls were of some of the active stocks. The Board has been devied the use of the instruments of the Stock Exchange. The members of the Board yesterday expressed the hope that this refusal of the managers of the Stock Exchange was not final. They believed that the Board could compel by lawsuit the Exchange to grant the Board the use of the instruments. Some feared that the lack of stock quotations would interfere with the success of the new Board.

THE REPUBLICAN MAJORITY. THE REPUBLICAN MAJORITY NOW ESTIMATED AT

ABOUT 14,000-RETURNS FROM NEARLY ONE-HALF THE STATE.

St. Paul, Nov. 5.-The latest computations inrease the probable Republican majority to 14,000, Returns from nearly 200 election precincts, casting nearly half of the vote of the State, give the follow-

For Governor-Pillsbury (Rep.), 16,825; Rice (Dem.), 14,827.
For Lieutenant-Governor-Gilman (Rep.), 17,477;
Barnum (Dem.), 13,916.
For Scretary-Von Baumach (Rep.), 17,544;
Borer (Dem.), 13,946.

Gilman lost about as many Republican votes as he had gained Democratic votes. His majority is about the average of the ticket. These returns are

from the larger towns. Those from the rural distriets, where the Republican preponderance is greater, will, it is estimated, increase Pillsbury's majority to at least 12,000. This is about 1,000 behind the rest of the ticket. CONSIDERABLE SCRAT HING BY REPUBLICANS.

Later-Returns from the counties and the larger towns are coming in but slowly to-night, on account of the great amount of scratching. Very few complete returns have been received. Pillsbury (Rep.), for Governor, has been scratched in favor of Rice (Dem.), while Gilman (Rep.) for Lieutenant-

Governor, runs ahead of his ticket.

Pillsbury's friends allege that this is a confirmation of the charge made before the election of a bargain between Gilman and Rice, by which the former was to receive Democratic votes and the latter to be voted for by Gilman's friends. There is also some scratching of the candidates for Trees, urer and Secretary of State, on account of the feeling among the Germans and Scandinavians. The actual Republican majority will probably appears best in the vote for Attorney-General The Roll.

THE MEXICAN REPUBLIC.

Mexico, Oct. 21 .- President Diaz has declare that he will not favor any particular candidate for President. He has sent a commissioner to Yucotan to insure to the opposition party a free election. Tagle, the Minister of the Interior, and Gonzalez, the Minister of War, are to retire from the Cabinet. Their successors have not been named. This is a movement to tionists in Duranco have been defeated and dispersed It is reported that the Mexican Railway Company, British corporation, owes \$3.000,000, and that the Supreme Court has been induced to order an immediate settlement. Advices have been received to the effect that the French Government will soon renew relations with Mexico. break up Presidential intrigues in the Cabinet. The revolu-

ROCHESTIE HONORS HOOKER.

ROCHESTER, N. Y., Oct. 5 .- Minute guns were fired and the bells of the city tolled between the hours of 12 and 1 o'clock as a mark of respect to the late General Hooker, whose funeral took pince to-day. The arrangements were under the charge of Colonel John A. Reynolds, of the famous Reynolds Battery, and a member of General Hooker's staff at Lookout

THE STETTAUERS' FAILURE.

CHICAGO, Nov. 5 .- There is a bitter feeling against Stetlauer Brothers on the part of transactions have been discovered; that the Stettauers have drawn out \$300,000 in the past two years, while Einstein, the New-York member, has drawn only \$6,000 annually. The firm is trying to zettle on the basis of 50 cents on the dellar, but it is not likely the creditors will accept that figure.

SUICIDES IN SAN FRANCISCO. The annual report of Dr. L. L. Dow, Cor-

oper of the City and County of San Francisco, for the year 1878-79, is particularly interesting in the statisticwhich it gives of suicide. For the sixteen preceding years there had been an average increase of cases of felo de se of 21.86 per cent. In 1878-79 there had been a decrease, which it is difficult to account for, as nearly all the acknowledged influences conducive to the set had been in full force, such as hard times, business stagnation, political agitation, fluctuations in mining stocks. etc. Dr. Dow thinks that discussion of the subject, oc casioned by his previous reports, may have had a restraining effect. The total number of suicides in San Francisco during the year was 86. Of these 10 were females. The oldest suicide was seventy-eight years of are, the youngest thirteen years; the average age was forty years. Natives of Germany furnished the largest number, 27; and of New-York the next largest, 10 Those of weak intellect were 8 in number; those of average mind, 57; above the average, 21. In 6 cases there had been a previous attempt. Of the self-slain, 50 were Protestants, 15 Catholics, 3 Jews, 2 "Spiritualists," 6 Chinese. There were 14 who killed themselves because

this rule, however, there are marked exceptions. Compared with New-York, there are three times as many sureides a Sen Francisco in pro-ortio to he population—the rate here being about 1 for every \$,000 inhabitants; in Brooklyn, 1 for every 10,000; in Ph 1 delphin, 1 for every 14,000. In San Francisco it examples a frequently illustrated—no form of suicide being accomplished but another, at least, follows in the same manner and with the same means, generally within twenty-four or forty-eight hours.

THE HAYDEN MURDER CASE.

New-Haven, Conn., Nov. 5 .- In the Hayden murder case to-day, the map of the scene of the crime was carefully examined by counsel for the crime was carefully examined by counsel for the defence. The prisoner pointed out at the request of his counsel the route that he claims to have traveited on the afterneon of the murder from his house to the wood pile, where he was plling up wood at the precise time that Mary Siannard was killed. The State time effected to allow the jury to examine personally succinens of arsente under the interoscope. The defendant's counsel objected to this method.

DEATH OF ERASTUS A. MUNGER. Utica, N. Y., Nov. 5 .- Dr. Erastus A. Munger, of Waterville, Oneida County, died yesterday, aged sixty-six years. He was the first homosopathic physi-cian in Onelda County, and the first president of the New-York State Homosopathic Society.
